Resume objective

I am a advocate for education and self improvement, the classroom never closes for me. Over the years I have fine tuned my punctuality and can note it as one of my core values. I have acquired numerous sololearn certificates of completion. I have a great interest in Artificial intelligence and its implementation in the back-end of websites and mobile applications. I intend to be a full stack developer and a AI Engineer to be able to change the countries current technological desert into a Wetland, bringing recognition to the global South. I am looking forward to learning a lot from the internship on Web development and gain more real life experience from professionals.
